6	Make a demo video about image processing
7	Add user story about server processes both the real world and mocked images

Pending action items:

#	Action item	Who	Due date
---	-------------	-----	----------

Summary: In the beginning we presented our demo video to our customer and he was satisfied. Then we have talk about the future of product, and how the next demo should look like. We have agreed on "Traffic light" and "Moving device on colorful matrix" as a goal for sprint 4. Customer has revised our user stories and add a story about collecting phones so we can use them for final demonstration. We have also suggested to prepare acceptance tests for him to approve.

Next meeting: 17 October 2013

Meeting adjourned at 18:50.
